AutoCAD is one of the first widely used and widely used CAD applications. It's a widely used platform, powering some of the most widely used applications in the architecture and construction industry including top-selling architectural drawings. In addition to providing 2D drafting capabilities, AutoCAD also incorporates 2D and 3D computer-aided design and drafting (CAD) tools. The application is powered by the same AutoCAD operating system (OS) and file format as AutoCAD Architecture, which means that 3D objects created in Architecture can be opened in AutoCAD and viewed in 2D, and that 2D drawings can be converted into 3D models in order to be viewed in 3D. AutoCAD 2017 was released on August 23, 2017. AutoCAD 2018 was released on August 1, 2018. Both AutoCAD 2017 and 2018 are available for Windows and Mac and are fully compatible with previous versions. AutoCAD Architecture, which is sold separately, is also available for Windows and Mac. A Hollywood actress can sue a psychologist who began treating her when she was 14, claiming that her negative experiences with him led to a decades-long obsession with sex. In a suit filed on Tuesday, Natasha Lyonne, 33, claims that she was treated by Dr. Paul Hoch, who sexually assaulted her at least three times when she was 15 and 16. Hoch denied having “sexual contact or sexual intercourse with plaintiff” in statements to the Los Angeles Times, but the complaint alleges that Lyonne began spending all of her free time in the company of him, hanging out at his home, going to therapy sessions, and calling him “Dad.” “Plaintiff suffered a great deal as a result of this sexual abuse,” the complaint reads. The suit says that Lyonne’s sexual experiences with Hoch caused her to seek sexual gratification through fantasizing about having sex with men, an addiction that she blames on Hoch and his professional advice. “As a result of having to spend most of her free time with Hoch, plaintiff was able to further become entrenched in the psychology profession, and further develop her sexual obsessions,” the suit says. “Defendant Dr. Hoch’s violation of his duty of care to plaintiff is the proximate cause of plaintiff’s obsession with sex.” Hoch is not named as a defendant in the suit, as it was filed in Los Angeles County Superior Court. The Los Angeles Times did not know where Hoch was employed. Lyonne, who was raised in a strict Mormon household in Virginia, reportedly began seeing
